DR CHI ZANG

EARLY CAREER MEMBER
JOINED 2020

WHY DID YOU JOIN THE SLS?

I believe that the Society is a superb community and platform to help early career researchers to establish connections with the peers, and the information provided by the Society is really helpful to my career development. This is particularly important for a beginner who do not have rich experience in academia.

BENEFITS

I attend several high-level conferences that circulated by the Society and moreover, I also found lots of useful job information from the newsletter sent by the Society, which is also really helpful.
